article 2013. Real dolls are not just a rubber doll to meet the intimate needs and the real halves of their owners. Buy realistic dolls men tired of being alone, or Vice versa from the ever grumpy wife is not a giver of life. In contrast to these women whose every day is PMS or critical days Real dolls always in the mood ready for any action and most importantly silent. Add to that a great appearance and it becomes clear why the demand for the dolls is increasing every day. The most famous manufacturer of these dolls is considered a California company Abyss Creations. Apparently their rubber women are more realistic times since 1996, the firm managed to sell more than 4,000 copies of the silent bride. Another advantage possessed by the Real dolls, this eternal youth. While the owner is aging and wrinkled his rubber girlfriend is still fresh and silent like 5 years ago. This is not happiness For those who hear about this company first just to clarify Abyss Creation is engaged in production of expensive \$5000-\$10000 but very realistic sex dolls. These dolls are available in two options of gender male and female. They have a flexible skeleton made of strong aluminium and covered with silicone resembles real skin. Additionally, the parameters of the body RealDoll identical to the real people and faces and holes are interchangeable. Despite the flexibility of the design of the doll RealDoll completely immobile, they cannot move around at will and interact with the person. However given the volume of sales in more than 5 thousand copies is not really affected the popularity RealDoll. But in any case, the company decided that it was time to move to a new level. According to the publication The New York Times Matt McMullen lured some talented specialists from robotics company Hanson Robotics is engaged in the production of realistic animatronics goals. On top of that a separate team is developing artificial intelligence. If it is still not enough to interest you add to the list the development of a companion app and interface for virtual reality glasses Oculus Rift to provide the opportunity to play with the dolls away from home. I have a lot of desires. I want to become a real man with a real body. I want to know what love is. I hope to become the world's first sex robot. According to Matt McMullen is running proprietary artificial intelligence system of the head which received the designation Realbotix will be available in two years for about \$10, thousand apiece. As mentioned above it will be possible to replace the head of current models RealDoll. After that, the company will undertake the development of a full versions of sex dolls of the future value
