

News, events, facts and Analytics A new reality: RealDoll sex dolls with artificial intelligence

– 5 = four It is expected that the skeleton doll is created from high strength aluminum and the skin is made of silicone. We believe that the line between fantasy and reality must not be erased explains Matt. Company Abyss Creations manufactures sex dolls for over 20 years but after two years assigned to the release of Android which you can tuck says the NY Times. So for example the Harmony wants to become a real man with a real body to learn what true love is and dreams of becoming the first sex robot in the world. In the beginning they need to talk to say a compliment and then proceed to the case said one of the developers of the company Matt Macmullen. I wonder what Macmillan plans to make its products was not an exact copy of a person. The cheapest model of the company is 65 thousand dollars. At Abyss Creations characteristically have its office and
