Hello guest sign in | Registration Many commentators have compared this video with a horror movie and admit that after seeing it will never be able to touch a sex doll. Many network users are confused that how these rubber products like real women. The American company Abyss Creations is engaged in manufacturing realistic silicone sex dolls with movable limbs since the mid 1990-ies. Their skeleton is made of high-strength aluminium. The price of the budget model is about 65 thousand dollars. To date, except in America the company is represented in several countries including in
